and the Town School District of Waterville, Vermont

## **RESUME OF THE 1988 WATERVILLE TOWN SCHOOL DISTRICT MEETING**

1:00 p.m. Tuesday, March 1, 1988.

**Article 1.** The following were elected:

- A. Moderator, Dr. Roger Mann
- B. A School District Board Member to serve a term of three years,  
Debbie Hodgson.

**Article 2.** The reports of the Waterville Town School District Officers were accepted.

**Article 3.** The voted compensation for the elected Town School District Officers is \$100.00 per year for the School Board members and \$200.00 for the secretary.

**Article 4.** The motion was made and accepted to consider Article 4 and Article 6 because both articles involve finances and planning.

Article 4 read as follows: Will the Town School District vote to raise a sum of money on its Grand List to pay the debts and current expenses of the District and, if so, provide for fixing the sum thereof, the time and manner in which the same shall be payable?

**Article 4.** Voted to approve a Budget of \$338,980 of which \$159,000 is to pay Union High School Assessment and \$179,980 is for the operation of Waterville Elementary School. Of this sum, \$159,830 is to be raised on the Grand List of Waterville's property taxes. Voted to collect School taxes the same as the General Town.

Article 6 read as follows: To add a sum of dollars resulting from any increase in anticipated state aid not to exceed Ten Thousand Dollars (\$10,000.00) to the operating budget of the Waterville Central School to be used for the planning stages of any new school land purchase options and architectural and/or engineering fees. Furthermore, that any additional increase in anticipated state aid beyond this \$10,000.00 be added to the already existing building fund.

**Article 6.** Was amended to read as follows: Approve \$10,000.00 to be used for

the planning stages for any new school construction and/or renovation including, but not limited to, land purchase options and architectural and/or engineering fees. Furthermore, that any additional increases in anticipated state aid beyond this \$10,000.00 be allocated in the following manner: \$9,810 to be applied to school improvement to address public school approval concerns and all remaining state aid to be placed in the already existing building fund of \$20,000.00.

Article 4 and 6 were unanimously accepted. Dolores Tilton, School Director, reported some of the new improvements needed were computers, fire blankets, new desks, files, tables, science equipment, library, curriculum revision and updating reading series.

**Article 5.** Voted to authorize the Town School District to borrow money to pay current expenses and debts in anticipation of the collection of taxes by notes on the Waterville School District.

**Article 7.** To do any other business that may legally come before the meeting. It was reported that the Deer Hunters Dinner netted \$893.00 for the hot lunch program.

The skating rink at the school was greatly appreciated. The hard work and cooperation of a group of public spirited parents made the rink possible. Top soil would be added to the grounds when advisable.

Jon Fox and others thought that it would be wise to make an indepth study of the feasibility of Waterville's joining Cambridge for a new High School. 43 voted for this, 1 voted against it.

Voted to adjourn at 2:05 p.m.

ATTEST: Emma Davis, Town Clerk

Deborah R. Hodgson (chair)  
Jennifer W. Blackman  
Sandra R. Duffy  
School Directors, Town of Waterville

## STUDENT ASSESSMENT

Each year the Comprehensive Test of Basic Skills Achievement Tests are administered to Waterville Central School students in grades 1-6. The results of these tests are used to adjust to individual needs and to direct our overall program.

The figures in the chart below indicate the percentage of our students that scored at or above grade level. Grade level is defined as the point where 50% of students in the National Survey score at or above grade level and 50% score below.

The chart below lists the percentage of students by grade that scored at or above grade level in the spring of 1988.

\*\* State Aid allocations for 1989 were not available to the School Directors at the time the 1989 budget was prepared and submitted to the Town Clerk for printing.

Lacking information on State Aid, the estimates of income, in particular property taxes, could not be accurately projected. However, when State Aid allocations are provided by the State Department of Education, the estimate of property taxes required to finance the Waterville school budget will be adjusted accordingly.

The Board of School Directors regret that we could not more accurately forecast the property tax estimate until additional information concerning State Aid is released, and we regret any inconvenience or apprehension this situation may have created.

## WATERVILLE TOWN PLANNING

During 1988, the members of the Waterville Town Planning Commission studied the requirements for a town plan, as specified by Act 200, regional and state planning, and the needs of Waterville.

Members of the commission attended the following seminars:

4-week Seminar for Planners conducted by CCV and the Vermont Department of Housing and Community Affairs, fall of '87 and fall of '88.

Flood Plain Management by Lamoille County Planning Commission (LCPC).

Act 200 hearing in Morrisville, sponsored by the State of Vermont.

Land Use Appraisal.

In the fall of 1988, the planners sponsored two informational meetings: "Special Plans" and "Why Plan Waterville", which was hosted by Jean Flack. In early 1989, three more forums were held in Waterville. These forums were sponsored by LCPC. The information derived from these meetings served as a base of knowledge and understanding of the wants, ideas and needs of the people of Waterville.

With the benefit of these meetings and countless hours of research, discussion and consultation, the planners have produced the first draft of Waterville's town plan.

There is a great deal of need in town for volunteers to help in the planning and administration process. Because there were so few volunteers, the members of the Planning Commission were called upon to serve as zoning officials, as required by interim zoning laws. In this capacity, they received 20 permit applications; 17 were approved (four in hearings for conditional use permits and/or variances) and three are still pending.

Goals for 1989 include the drafting of a final town plan to be accepted by the town and its selectpersons no later than June 30, 1989; and beginning work on a capital budget, as well as zoning and subdivision regulations, which will follow the direction established by the town plan.

## **WATERVILLE CENTRAL SCHOOL DISTRICT REPORT OF THE SCHOOL DIRECTORS**

To the Citizens of Waterville:

The following report concerns the school year July 1, 1988 to June 30, 1989, the year for which you voted a tax at your March, 1987 meeting. It also includes the year July 1, 1989 to June 30, 1990, the year for which you will be voting a tax at your March, 1989 meeting.

### **STUDENTS:**

The enrollment of Waterville Central School as of December 31, 1988 was 57 students. Maylo Baker remains our principal and grades 1-2 teacher. Patricia Whitcomb is our grades 3-4 teacher. Caroline Sue Paterek teaches grades 5-6. Margaret Lange is our remedial reading and math teacher, as well as a classroom aide. Marion Locke gives our kindergarten children a wonderful start as their teacher. Sally Vargo provides assistance to children with special needs.

### **CURRICULUM AND INSTRUCTION**

Our curriculum appropriately provides for instruction in all the basic education areas and also provides opportunities for children to expand their interest and knowledge of music, physical education, art and a variety of enrichment subjects. Our staff is comprised of outstanding educators who provide instructional services within their classrooms. Additional services available include a resource room teacher, a remedial reading teacher, an enrichment program, part-time physical education instructors, a health services director and a special education services coordinator. The School Board, Administration, teachers, and staff strive to provide an environment which will promote a love for learning. We also emphasize the rights and responsibilities of citizenship. Our programs are based on providing children with a strong academic background, a healthy self-image, and a sense of community based on cooperation. The School Board and Superintendent of Schools are confident that our school offers an excellent program of instruction for the students of Waterville Town School District.

During the 1987-1988 school year, our school was visited by a Vermont Public School Approval Team. We are pleased to notify the citizens that we

achieved approval status and several accolades for our program of instruction. In December of 1989, we underwent a follow-up visit and were once again applauded for our progress.

This year, the staff at Waterville Central School has continued to review a curriculum and policy to comply with the new State requirements for Public School Approval. The State standards establish a series of minimum requirements for an elementary school education. It is the goal of our school district to move beyond the "minimum" expectations and to provide children with an opportunity to develop to their maximum potential.

Our program is closely coordinated with Lamoille Union High School and offers an opportunity for children to make a smooth transition from our town school district to the junior and senior high school programs offered at Lamoille. We are pleased to report that Waterville students are highly successful at Lamoille Union and are very active in both curricular and co-curricular offerings.

## SCHOOL OPERATION AND MAINTENANCE

During this year, the School Directors have been actively involved in planning for future school construction. A building committee was formed and this group has been investigating all possible alternatives to our school space problems. This Committee has been asked to review the advantages and disadvantages of new construction versus renovation and addition. The Committee has used the State facilities review report as a basis for their investigation. This report points out several deficiencies in our present school environment. Some of these problems are due to the age of our building and others are created by our enrollment numbers and the Public School Approval Standards. Although we meet the State standards in curriculum and instruction, we fall far short of minimum requirements in several facility related areas.]

In the spring of 1988, the Building Committee and School Board employed Cindy and Stearns Allen to investigate appropriate sites for a new school. This report was delivered to the Board in early January of 1989 and provides the Town with a good list of possible acceptable school sites.

The Board and Building Committee have also interviewed several architectural firms and, at the time of this report, we are close to making a final decision on employing a firm. This decision will be based on visiting several schools built by the applicant architects.

The School Directors will keep the citizens informed of our progress and they are planning to hold several public meetings on this subject throughout the spring of 1989.

## BUDGET

The proposed total budget for the 1989-1990 school year is \$412,089. This is 21.5% greater than the 1988-1989 budget. Included in this amount is \$205,244 for the Lamoille Union High School assessment and \$206,845 for the operation of Waterville Central School. Of this increase, 15.8% is for our elementary school operation and 29% for Lamoille Union High School. This will bring our allowable per pupil cost to \$2,600 which is \$700 below the average State per pupil cost of \$3,300. It is estimated that the taxpayers of Waterville will need to raise \$192,789 in local property taxes for the operation of our school district for the 1989-1990 fiscal year. This is a 21% increase over the percent raised for schools last year. It should be noted that the financial determination of the high school assessment will be made at the Annual Meeting of the Lamoille Union High School District which will be held on Tuesday, February 21, 1989 at 8:00 p.m. in the Lamoille Union High School Auditorium in Hyde Park, Vermont.

## APPRECIATIONS

We wish to thank you, the citizens of Waterville, for your continued interest and support of the Waterville Central School and the Waterville K-12 educational program. We sincerely appreciate the dedication of our principal, teachers and staff members. The high quality of education available to our children is made possible because of their long hours of service and their contributions to our educational program. We also deeply appreciate the partnership the community has formed with our school.

Respectfully submitted,

## **REPORTS FROM SEVERAL ORGANIZATIONS REQUESTING TOWN FUNDS IN 1989**

CENTRAL VERMONT COUNCIL ON AGING is a private, non-profit organization helping area elders maintain themselves in their own homes. In 1988, eight people received meals, ten received advocate services, and four received transportation services. 18 South Main St., Barre, VT 05641.

CLARINA HOWARD NICHOLS CENTER is a private, non-profit organization created to protect and assist women and children escaping from violent and abusive homes. Run by paid staff and volunteers, the Center provides a 24-hour hotline, information, emergency shelter for up to 30 days, and advocacy with medical, legal, welfare, and housing matters. 888-5256.

LAMOILLE COUNTY COURT DIVERSION is for first-time offenders (adult and juvenile) of non-violent misdemeanors who learn accountability for their actions. Offenders must make restitution to the victim for property damage, a personal apology to the victim, and volunteer community service work. Successful completion of the contract results in dismissal of the charges and no court record. The average cost per case was \$275.00. The State pays for 85% of the cost, the rest comes from local funds. 888-5871.

LAMOILLE HOME HEALTH AGENCY, INC., is a non-profit organization that provides home health care services including nursing, aide, therapy, and homemaker regardless of ability to pay. Town financial support offsets the costs not covered by insurance or Medicare and Medicaid. The town funds also provide moral support to LHHA — indicating we approve of what they do. 888-4651.

## **LAMOILLE COUNTY PLANNING COMMISSION 1988 ANNUAL REPORT**

Since the passage of Act 200 (the Growth Bill) there has been much added to the overall goals and responsibilities of the County's Regional Planning Commission. During this past year we have changed our name from the Lamoille County Development Council to the Lamoille County Planning Commission to reflect our purpose to serve the need for community planning.

We have submitted and received a special planning grant from the Community Development program for \$15,000 for which the LCPC will add another \$8,500 to it to prepare Utility and Facility elements for each municipality in 1989.

LCPC has coordinated and contributed \$10,000 towards input of Lamoille County soils, surface waters, roads and natural areas onto UVM's Geographic Information System's computer database. Towns will be receiving copies of their soils map during 1989.

In addition, we have been very involved with the creation of a Lamoille County Solid Waste Management District. On November 8, 1988, all Lamoille County towns voted to join this district. This will ultimately save the towns money while retaining control over their management of solid waste and recycling. We have written a solid waste planning grant and have received approximately \$133,000 to date in early release planning funds to accomplish the associated tasks of a waste generation analysis, developing recycling centers, siting and developing a regional landfill to be build to new environmental regulations and to develop a solid waste plan for the Lamoille County Regional Plan by 1990.

Sincerely,  
Barbara S. Farr  
Executive Director

## **UNIVERSITY OF VERMONT EXTENSION SERVICE LAMOILLE COUNTY**

The Lamoille County Extension Service is an outreach arm of the University of Vermont. We are not directly involved in formal college credit teaching, but rather we act in a more informal capacity, bringing to all people the services of the University. We are by statute attached to the College of Agriculture and the USDA, but our programs are by no means limited to traditional agricultural topics.

We feel our total program meets the needs of all family members. Our activities are primarily educational, but on occasion we provide consultive services as well. We use various methods to teach . . . ranging from personal contact to meetings and short courses, and from newsletters for special interest groups to newspaper, radio and television. Trained volunteer leaders help fill our program.

Our office is in the Agricultural Center Building, junction of routes 15 and 100 in Morrisville, RR#1, Box 2280, Morrisville, VT 05661; and our telephone numbers are 888-4972 and 888-5556. Feel free to call on us anytime.
